ANNUAL**

CASA

CASA is a family-oriented masonry and concrete supplier, and, in honor of CASA's founder, Alberto Paniccia, Sr., all proceeds from this outing will be donated to The Cancer Institute at St. Francis Hospital.

Most commonly known as one of the nation's leading heart centers, St. Francis Hospital has established a Cancer Institute where patients can depend upon the same level of excellence in oncology that they have come to expect in cardiac care. Conveniently located on the North Shore of Long Island, The Cancer Institute of St. Francis Hospital is able to make accessing world class medical care convenient to Long Island and New York City residents. Their new state-of-the-art Cancer Institute at 2200 Northern Boulevard in East Hills was designed to offer all-inclusive care including medical oncology, radiation oncology, infusion care, and radiology together under one roof so that their patients can rest knowing that a team is working collaboratively and all needs are being met in an efficient manner. In addition, The Cancer Institute at St. Francis Hospital offers supportive services from their oncology social workers, oncology nurse navigators, and dietitians to address the issues that can arise as a result of cancer diagnosis.

With your help over the past ten years, we have raised \$768,143.88 and we would like to raise over \$800,000 this year.
